

FOR IMMEDIATE RELEASE

## **Rob Levy Joins dotFX Advisory Board**

### **Former CTO of BEA and Computer Associates joins dotFX Advisory Board**

**May 26, 2009 – REDWOOD CITY, CA** - dotFX, Inc., a Redwood City-based company developing cloud and client software solutions, today announced that Rob Levy, former Chief Technical Officer (CTO) of BEA Systems, acquired by Oracle for \$8.5 billion, and Chief Technical Strategist of Computer Associates joins the dotFX Advisory Board.

“I met the dotFX founders while at BEA Systems. Part of my job was to identify the next billion dollar revenue opportunity,” stated Rob Levy. “I believe that dotFX has a unique technology that positions them nicely for the emerging market opportunity to monetize the global desktop client in a variety of new ways as it converges with the cloud. Their technical team in particular excels in the area of security, which is especially important given growing malware problems with the Web browser and desktop, along with the focus by the U.S. government on the challenge of securing Cyberspace.”

“We are extremely pleased to welcome Rob Levy to our Advisory Board” said Pete Hartigan, President of dotFX. “He has had an extraordinary career as an executive, showing outstanding technical leadership in companies at the forefront of our industry. We have known Rob for several years, and look forward to working with him closely.”

#### **About Rob Levy**

Mr. Levy has over 25 years of experience in leading all aspects of the computer software and services business. He served as Executive Vice President, Chief Technical Officer at BEA Systems (acquired by Oracle for \$8.5 billion) and Senior Vice President, Chief Technical Strategist for Computer Associates. Previously, Mr. Levy served in executive management positions for several start-up ventures, including ItemField, Inc, a leading-edge XML transformation startup, and Nastel Technologies, a leading middleware management vendor. He served as founder, Chairman and CEO of MQ Tech, Inc., a successful middleware services and consulting company and held several management positions at Candle Corporation.

#### **About dotFX, Inc.**

dotFX, Inc. is a privately held software company offering a suite of cloud and client software solutions. These allow client applications to be deployed, unmodified, in the cloud, as well as offering next-generation security and functionality enhancements for existing cloud applications. Founded in 2007, dotFX is headquartered in Redwood City, CA. For more information, please visit [www.dotFX.com](http://www.dotFX.com).
